

NASA ASTROBIOLOGY INSTITUTE ANNUAL REPORT YEAR 6

[July 2003 - June 2004]

Annual Reports :: Year 6 :: Ames Research Center

Publications: Ames Research Center

Adams, F., Hollenbach, D., Laughlin, G. & Gorti, U. (In Press, 2004). Photoevaporation of circumstellar disks due to external FUV radiation in stellar aggregates. *Astrophysical Journal*.

Albert, D.B., Hoehler, T.M., Bebout, B.M., Turk, K.A. & Des Marais, D.J. (2004). Nighttime loss of fermentation-derived organic acids as the basis of a syntrophic link between phototrophs and heterotrophs in microbial mats [Abstract]. AbSciCon 2004, NASA Ames Research Center, Moffett Field, CA. International Journal of Astrobiology, Supplement 1 (March): 28.

Allamandola, L.J. & Hudgins, D.M. (2003). From interstellar polycyclic aromatic hydrocarbons and ice to astrobiology, in solid state astrochemistry. In: V. Pirronello et al. (Eds.). *NATO Advanced Study Institute* (pp. 251–316). Dordrecht, The Netherlands: Kluwer Academic Publishers.

Amundsen, H.E.F., Steele, A., Fogel, M., Mysen, B., Kihle, J., Schweizer, M., Toporski, J. & Treiman, A.H. (2004). Life in a Mars analog: Microbial activity associated with carbonate cemented lava breccias from NW Spitsbergen [Abstract]. Abstracts of Papers, Goldschmidt Conference 2004, Copenhagen, Denmark. Abstract #684.

Apel, C.L. & Deamer, D.W. (2004). The formation of glycerol monodecanoate by a dehydration/condensation reaction: Increasing the chemical complexity of amphiphiles on the early Earth [Abstract]. Prebiotic chemistry and the origins of life. AbSciCon 2004, NASA Ames Research Center, Moffett Field, CA. International Journal of Astrobiology, Supplement 1 (March): 102.

Apel, C.L. & Deamer, D.W. (Submitted, 2004). The formation of glycerol monodecanoate by a dehydration/condensation reaction: Increasing the chemical complexity of amphiphiles on the early Earth. *Origins of Life and Evolution of the Biosphere*.

Beaty, D.W., Mahaffy, P.R., Anderson, M.S., Aveni, G., Bada, J., Clemett, S.J., Des Marais, D.J., Douglas, S., Dworkin, J.P., Kern, R.G., Papanastassiou, D.A., Palluconi, F.D., Simmonds, J.J., Steele, A., Waite, J.H., & Zent, A.P. (2004). Organic contamination on martian landers: astrobiology implications and mitigation strategies [Abstract]. AbSciCon

2004, NASA Ames Research Center, Moffett Field, CA. International Journal of Astrobiology, Supplement 1 (March): 86.

Bebout, B.M., Hoehler, T.M., Thamdrup, B., Albert, D.B., Carpenter, S., Hogan, M.E., Turk, K.A. & Des Marais, D.J. (In Press, 2004). Methane production by microbial mats under low sulfate conditions. *Geobiology*.

Bernstein, M.P., Ashbourn S.F.M., Sandford, S.A. & Allamandola, L.J. (2004). The lifetimes of nitriles (CN) and acids (COOH) during ultraviolet photolysis and their survival in space. *The Astrophysical Journal*, 601: 365–370.

Bernstein, M.P., Bauschlicher, C.W. & Sandford, S.A. (2004). The infrared spectrum of matrix isolated aminoacetonitrile, a precursor to the amino acid glycine. *Advances in Space Research*, 33: 40–43.

Bernstein, M.P., Elsila, J.S.A., Dworkin, J.P., Sandford, S.A., Zare, R.N., Moore, M. & Allamandola, L.J. (2004). Interstellar photochemistry as a source of meteoritic pre-biotic organic molecules [Abstract]. Session on Origin of Life/Prebiotic Chemistry. AbSciCon 2004, NASA Ames Research Center, Moffett Field, CA. International Journal of Astrobiology, Supplement 1 (March): 101–102.

Bernstein, M.P., Elsila, J.S.A., Dworkin, J.P., Sandford, S.A., Zare, R.N., Moore, M. & Allamandola, L.J. (2004). Photolysis and radiolysis of ice as a source of false biomarkers on Europa [Abstract]. Session on Search for life beyond Earth. AbSciCon 2004, NASA Ames Research Center, Moffett Field, CA. International Journal of Astrobiology, Supplement 1 (March): 118.

Bernstein, M.P., Sandford, S.A. & Allamandola, L.J. (2003). Spectra and photochemistry of relevance to icy outer solar system objects [Abstract]. DPS (Division of Planetary Science) 35th Meeting, Monterey, CA. Session 5. Laboratory Research I, Talk 5.07.

Bishop, J.L., Edwards, H.G.M., Anglen, B.L., Pratt, L.M., Doran, P.T., and Des Marais, D.J. (2003). A spectroscopy and isotopic study of sediments from the Antarctic dry valleys as analogs for potential paleolakes on Mars [Abstract]. 2003 Abstract Book, GSA (Geological Society of America) Annual Meeting & Exposition, Seattle, WA. p. 464.

Bishop, J.L., Howell, G.M.E., Anglen, B.L., Pratt, L.M., Doran, P.T. & Des Marais, D.J. (In Press, 2004). A spectroscopy and isotope study of sediments from the Antarctic dry valleys as analogs for potential paleolakes on Mars. *International Journal of Astrobiology*.

Blake, D.F., Schulte, M. & Hoehler, T. (2004). Ultramafic terranes as habitats for life on Mars and early Earth [Abstract]. AbSciCon 2004, NASA Ames Research Center, Moffett Field, CA. International Journal of Astrobiology, Supplement 1 (March): 84.

Cabrol, N.A., Des Marais, D., Farmer, J., Crumpler, L., Grin, E.A., Milam, K., Grant, J., Greeley, R., Anderson, R.C., Grotzinger, J., Arvidson, R., Simss, M.H., Landis, G., Blaney, D., Learner, Z.A., de Souza Jr., P.A., Weitz, C. & the Athena Science Team. (2004). Spirit at Gusev Crater: Preliminary observations, potential processes, and hypotheses [Abstract]. 35th Annual Lunar and Planetary Science Conference, 2004. p. 2164.

Cabrol, N.A., Grin, E.A., Carr, M.H., Sutter, B., Moore, J.M., Farmer, J.D., Greeley, R., Kuzmin, R.O., Des Marais, D.J., Kramer, M.G., Newsom, H., Barber, C., Thorsos, I., Tanaka, K.L., Barlow, N.G., Fike, D.A., Urquhart, M.L., Grigsby, B., Grant, F.D. & de Goursac, O. (2003). Exploring Gusev Crater with Spirit: Review of science objectives and testable hypotheses. *Journal of Geophysical Research – Planets: Special Mars Exploration Rover (MER) Mission Issue*, 108(E12): 17–1 to 17–21.

Castenholz, R.W. (2004). Phototrophic bacteria under UV stress. In: J. Seckbach (Ed.). *Origins: Genesis, Evolution, and Diversity of Life*. Dordrecht, Netherlands: Kluwer Academic Publishers.

Chaput, J.C. & Szostak, J.W. (In Press, 2004). Evolutionary optimization of a non-biological ATP-binding protein for improved folding stability. *Chemical Biology*.

Colaprete, A. & Toon, O.B. (2003). Carbon dioxide clouds in an early dense martian atmosphere. *Journal of Geophysical Research – Planets*, 108 (E4): 5025.

Crumpler, L., Cabrol, N., Des Marais, D., Farmer, J., Golombek, M., Grant, J., Greeley, R., Grotzinger, J., Haskin, L., Arvidson, R., Squyres, S., Learner, Z., Li, R., Madsen, M. B., Malin, M., Payne, M., Parker, T., Seelos, F., Sims, M., de Souza Jr., P., Wang, A., Weitz, C. & the Athena Science Team. (2004). MER field geologic traverse on Gusev Crater, Mars: Initial results from the perspective of Spirit [Abstract]. 35th Annual Lunar and Planetary Science Conference, 2004. p. 2183.

D'Antoni, H. & Skiles, J. (2004). Prediciendo ecosistemas del pasado en Am_rica del Sur [Abstract]. AbSciCon 2004, NASA Ames Research Center, Moffett Field, CA. International Journal of Astrobiology, Supplement 1 (March): 10.

Davis, S.S. (2004). A beta-viscosity model for the evolving solar nebula [Abstract]. Workshop on Modeling the Structure, Chemistry, and Appearance of Protoplanetary Disks, April 13–17, 2004, Bavaria, Germany.

Davis, S.S. (Submitted, 2004). Condensation front migration in a protoplanetary nebula. *Astrophysical Journal*.

Decker K.L.M. & Potter, C.S. (2003). Mathematical model of a marine microbial mat ecosystem II [Abstract]. Eos, Transactions of the American Geophysical Union, 84 (46, Fall Meeting Supplement): Abstract U52C–03.

Decker K.L.M. & Potter, C.S. (2004). Mathematical simulation of the diel O, S, and C biogeochemistry of a hypersaline microbial mat [Abstract]. AbSciCon 2004, NASA Ames Research Center, Moffett Field, CA. International Journal of Astrobiology, Supplement 1 (March): 32.

Decker, K.L.M., Potter, C.S., Bebout, B., Des Marais, D., Carpenter, S., Discipulo, M., Hoehler, T., Miller, S.R., Thamdrup, B., Turk, K. & Visscher, P. (Submitted, 2004). Mathematical simulation of the diel O, S, and C biogeochemistry of a hypersaline microbial mat. FEMS Microbiology Ecology (Federation of European Microbiology Societies).

Des Marais, D.J. (2003). Carbon isotopic biogeochemical clues about the early biosphere [Abstract]. 2003 Abstract Book, GSA (Geological Society of America) Annual Meeting, Seattle, WA. p. 382.

Des Marais, D.J., Allamandola, L.J., Benner, S.A., Boss, A.P., Deamer, D., Falkowski, P.G., Farmer, J.D., Hedges, S.B., Jakosky, B.M., Knoll, A.H., Liskowsky, D.R., Meadows, V.S., Meyer, M.A., Pilcher, C.B., Nealson, K.H., Spormann, A.M., Trent, J.D., Turner, W.W., Woolf, N.J. & Yorke, H.W. (2003). The NASA Astrobiology Roadmap. *Astrobiology*, 3(2): 219–235.

Des Marais, D.J., Turk, K.A., Carpenter, S., Bebout, B.M. (2004). Biogeochemistry of cyanobacterial mats, Guerrero Negro, BCS, Mexico [Abstract]. AbSciCon 2004, NASA Ames Research Center, Moffett Field, CA. International Journal of Astrobiology, Supplement 1 (March): 33.

Dworkin, J.P., Gillette, J.S., Bernstein, M.P., Sandford S.A., Allamandola, L.J., Elsila, J.S.A., McGlothlin, D.R. & Zare R.N. (2004). An evolutionary connection between interstellar ices and IDPs? Clues from mass spectroscopy measurements of laboratory simulations. *Advances in Space Research*, 33: 67–71.

Ennico, K., Sandford, S., Allamandola, L., Bregman, J., Cohen, M., Cruikshank, D., Greene, T., Hudgins, D., Kwok, S., Lord, S., Madden, S., McCreight, C., Roellig, T., Strecker, D., Tielens, A. & Werner, M. (2003). The AstroBiology Explorer (ABE) MIDEX Mission Concept _ Identifying Organic Molecules in Space. In: IR Space Telescopes and Instruments. J.C. Mather (Ed.). *Proceedings of the SPIE (International Society for Optical Engineering)*, 4850: 1149–1160.

Finke, N., Hoehler, T.M. & Jørgensen, B.B. (2003). Methanogenesis from methanol and methylamine at changing hydrogen concentrations [Abstract]. Forschungszentrum Terramare, Berichte Nr. 12: 50–51.

Finke, N., Hoehler, T.M. & Jørgensen, B.B. (2003). Methanogenesis from methanol and methylamine at changing hydrogen concentrations [Abstract]. *Geochimica et Cosmochimica Acta*, 67(18, Supplement 1): A97.

Finke, N., Hoehler, T.M. & Jørgensen, B.B. (Submitted, 2004). Competition between methanogenesis and sulfate reduction controlled by interspecies H₂ transfer. *Applied and Environmental Microbiology*.

Fleming, E.D., Norris, T.B., Bebout, B.M. & Castenholz, R.W. (2004). Resumption of photosynthesis after prolonged desiccation in an intertidal cyanobacterial mat [Abstract]. AbSciCon 2004, NASA Ames Research Center, Moffett Field, CA. *International Journal of Astrobiology*, Supplement 1 (March): 75.

Fleming, E.D., Norris, T.B., Bebout, B.M. & Castenholz, R.W. (In Preparation, 2004). Resumption of photosynthesis after prolonged desiccation in an intertidal cyanobacterial mat.

Gudipati, M.S. & Allamandola, L.J. (2003). Facile generation and storage of polycyclic aromatic hydrocarbon ions in astrophysical ices. *The Astrophysical Journal*, 596: L195–L198.

Heldmann, J.L. & Mellon, M.T. (2003). Observations of Martian gullies and constraints on potential formation mechanisms. *Icarus*, 168: 285–304.

Heldmann, J.L., Toon, O.B., Pollard, W., Mellon, M., Pitlick, J., McKay, C.P. & Andersen, D.T. (Submitted, 2004). Formation of martian gullies by the flow of simultaneously freezing and boiling liquid water. *Journal of Geophysical Research*.

Hoehler, T.M. (2003). Temperature regulation of H₂ concentrations in anoxic sediments: Implications for interspecies transfer processes [Abstract]. FEMS (Federation of European Microbiologists) Inaugural Workshop on Cold Adaption of Aquatic Microorganisms.

Hoehler, T.M. (In Press, 2004). Biogeochemistry of H₂. In: *Biogeochemical Cycles, Metal Ions in Biological Systems*, Vol. 43. A. Sigel, H. Sigel & R.K.O. Sigel (Eds.). New York: Marcel Dekker.
